**HOUSE.**  
National Associated Press to the Star.  
WASHINGTON, Dec. 10.—Mr. Burnes, of Michigan, offered a joint resolution proposing an amendment to the Constitution that Polygamy should not exist within the limit of the United States, and fully empowering Congress to enforce this article. It was agreed that the bill coming over from last Session to prevent Government officers from contributing to elections should be considered January 7th.

The House went into Committee of the Whole to consider the bill to fix the compensation of the reporter of the Supreme Court of the United States.

ANOTHER MURDER—ST. CHARLES BRIDGE—GHASTLY INVESTIGATION.  
Special to the Star.

ST. LOUIS, Dec. 10.—James Sullivan, who was badly beaten in a row on the Mattie Bell, during which John Bruno was drowned, has died of his injuries.

The railroad bridge at St. Charles is again all right, and the first train crossed over yesterday evening.

The careless remarks made by a couple of incautious medical students from Illinois on the secret workings of the dissecting-rooms of two or three medical colleges, led to the belief that from fifteen to twenty-five bodies are necessary to satisfy the demands of this institution, and that in no week have they failed to secure the required number. It is expected that an investigation of these institutions will soon take place, and, if rumors are true, some ghastly disclosures will follow.

**INDIANAPOLIS.**  
LEFT THE OLD MAN—RAID—PICKPOCKETS—FATAL FLARE.  
Special to the Star.

INDIANAPOLIS, Dec. 10.—Among the late negro arrivals from North Carolina is a woman with ten children. She says that her husband refused to come.

The police raided John Woodward's sporting place at an early hour this morning and brought in fifteen men.

Pickpockets were in their glory yesterday. Our County Treasurer lost \$160, and another man lost \$322. One man was arrested who had in his possession sixteen silk handkerchiefs, four veils and a red morocco pocket-book, containing \$2 in money.

During the storm yesterday a young man named William Deal, while felling a tree on his father's farm, five miles east of the city, was struck by lightning and instantly killed. The tree was splintered by lightning, and Deal's father's leg was broken by a falling limb.

**SPANISH AMERICA.**  
GUANO DISPUTE SETTLED.  
LONDON, Dec. 10.—A dispatch to-day from Valparaiso states that negotiations between Peru and Chili, respecting the guano trade, already mentioned in these dispatches, have resulted in an arrangement by which Chili undertakes to protect guano deposits on all the islands of the Coast of Peru for a royalty of thirty shillings per ton, and allows the Peruvian bond-holders whatever profit may remain after this deduction.

**A REVOLUTIONIST VICTORY.**  
NEW YORK, Dec. 10.—The San Domingo Consul in this city has received a cablegram by way of Porto Rico from General Hereaux, the Revolutionary chief, to the effect that a battle had been fought between the Revolutionists who, under his command were besieging the capital, and President Gillermo, who advanced upon them at the head of a large body of men.

The battle was long and fiercely contested. The Revolutionists were victorious, however, and finally captured the city, carrying all before them. The port has been declared open to commerce.

**A MIGHTY HAUL OF MULES.**  
LONDON, Dec. 10.—A dispatch from Valparaiso says that the Chilians defeated the Solinians at Aqua Santo and captured two thousand mules. The Chilians were marching on Veria. Peruvian advices assert that the Chilians were defeated near Loa, losing two thousand killed and fifteen hundred wounded. The Chilians deny this report. The new Peruvian Cabinet has been formed.

ST. PETERSBURG, Dec. 10.—A grand review took place yesterday to commemorate the founding of the Order of St. George. Last evening a banquet was given at which the Emperor proposed the health of Emperor William, saying: "My constant friend; the oldest Knight of St. George."

**MONTENEGRO.**  
A CONFLICT OF DEATH.  
VIENNA, Dec. 10.—Intelligence received here states that the recent battle between the Montenegrins and Albanians was the bloodiest and most destructive in the history of war. Not less than 1,500 troops are reported killed, and a vast additional number wounded.

The fight was fought in the bitterest possible spirit, no quarter being given on either side. The troops exposed themselves resolutely, declining in many cases to avail themselves of the cover which the mountainous region in which the battle occurred offered on almost all sides.

The scene when hostilities closed for the day was frightful. The ground was strewn with the slain, and wagons are still employed day and night carrying off the dead for hasty burial and the wounded into the improvised hospitals.

All the terrible fighting abilities of the warlike Albanians were brought out with magnificent effect, while their enemies were scarcely behind them in valor and dash. It is expected later reports will rather increase than diminish the list of losses on both sides.

**SPAIN.**  
THE NEW MINISTRY.  
MADRID, Dec. 10.—It is believed, though as yet the rumor lacks official confirmation, that Senor Ayala has succeeded in forming a new ministry as suggested by King Alfonso under recommendation of Senor Carovas Del Castillo. Capt. Bofinger, of St. Louis, as Chairman of the Executive Committee of the Board of Steam Navigation, appeared before the House Commerce Committee yesterday to speak in behalf of the steamboat bill. The committee, especially the members of it who were in the former Congresses, first intended to decide at once in favor of reporting the bill, but that further hearing of the question being granted, a sub-committee was appointed for this purpose. The prospects are, however, that the bill will get out of the Committee and on to the House before the holiday recess is taken.

LOUISVILLE, Dec. 10.—The weather this morning is gloomy, rainy and unpropitious for the reception of Grant to-day. Carriages are in waiting at the depot for the special train on the J. M. & L. Road. The city was handsomely decorated, but the rain has ruined the display to a great extent. Grant's train is due at noon, and he immediately falls in with the procession, which marches by a circuitous route to the Court-house, where the reception takes place. Afterward Grant lunches at the Louisville Hotel and receives the City Council, School Board, veterans, etc. Mrs. Grant at the same time receives at the residence of Mr. D. P. Foulds.

Ryan pitched into Dwyer, threw him to the floor, and dealt him some terrible blows. Dwyer did not want to have such a fight, but was willing to have a fair stand up contest. It is understood now that a regular match has been arranged. The police are on the lookout.

Two empty valises were lying near the body.

**STATE GRANGE.**  
Annual Meeting at Thoms' Hall.

At the afternoon session of the Grange yesterday, that part of the Master's message which referred to the preponderance of lawyers in legislative bodies, was discussed at length, but no action was taken.

The amendment to the Constitution, which was adopted by the recent meeting of the National Grange, giving County Granges power to confer the fifth and sixth degrees, and State Granges power to confer the fifth, sixth and seventh degrees, was ratified.

The question of establishing or aiding in establishing an organ, which shall take large views touching the interests of the organization, was presented.

The morning session to-day was spent mainly in the reading of reports, two of which called out considerable discussion. The first was a report of a special committee appointed to consider the expediency and feasibility of establishing a newspaper organ.

The question involved in the report was argued for and against by Messrs. Jones, Ogden, Thompson, Stewart, Jeff and others. The power of the press; the importance of a higher education for the farmer; the difficulty in the way; the power of political partisanship; the expediency of incorporating politics in the Grange, were earnestly and ably discussed and final action was postponed until this afternoon.

The report on legislation recommended petitions to be sent to Congress and the Legislature touching those questions of political economy which concern the interests of the organization, which, after some discussion as to the mode of reaching these bodies, were adopted.

The evening session will be spent in conferring the fifth degree, which is considered the most brilliant task of the order.
